

Luna

The moth from Ryan's tattoo — *Actias luna*, drawn to the real proportions of the species: the near-straight forewing edge, the eyespots, the feathery antennae, and the long trailing tails. Stitched in moth green.

On a khaki or stone cap

One thread only — cheapest to stitch

ACTUAL SIZE ON THE HAT — PRINTED 1:1

The dashed line is all the room there is to stitch into. Hold this page against a cap to judge it. Shown in dark thread for clarity — on a navy cap it stitches as above.
