

Spine

A lateral view of a real spine beside the name — the S-curve of cervical, thoracic and lumbar, vertebrae growing toward the base, spinous processes sweeping down and shingling over one another, and a fused sacrum. *Straight Up Spine & Posture*, and the concept tied to the practice.

ACTUAL SIZE ON THE HAT — PRINTED 1:1

The dashed line is all the room there is to stitch into. Hold this page against a cap to judge it. Shown in dark thread for clarity — on a navy cap it stitches as above.

WHAT DO YOU THINK?

Your name _____

☐ Love it ☐ It's fine ☐ Not this one

Anything you'd change _____

Still to decide: cap colour, and whether the hat carries a date.
